## Tour Discription

Among the most spectacular and well-known falls in the world are the Niagara Falls. They are located along the Niagara River, which forms the U.S./Canada boundary, in the far northwest of New York State. More than 12 million people visit this location each year as masses of water from Lake Erie rush over a nearly 200-foot drop.

There are a total of three waterfalls: Horseshoe Falls, American Falls, and Bridal Veil Falls, which is the widest. In Niagara Gorge, the river rushes through a narrow corridor before churning into a massive vortex downstream. Both on dry land and up close in the spray, there are many different ways to observe the falls.
